ABOUT ME

I'm a Full-Stack Developer with practical experience in building modern, scalable web and mobile applications using React.js, Next.js, Node.js, Express.js, and MongoDB. I specialize in designing APIs, integrating third-party services like Stripe, Firebase, and OpenAI, and creating secure authentication systems. My projects include AI-powered platforms, analytics dashboards, and team productivity apps, showcasing my ability to deliver real-world solutions. I also apply DevOps practices with Docker and CI/CD pipelines to ensure smooth deployment. Passionate about leveraging AI and new technologies, I am eager to contribute to impactful projects and grow as a developer.
